GOVERNOR MAY CALL ANOTHER SESSION

To Reconsider the Redistricting
Bill, Which is Feared.

Congress May Unseat Kentucky Mem-
bers On Ground That Act Is
Unconstitutional.

THE DEMOCRATS ARE SCARED

Louisville, March 30.—Acting on
advice of leading Democratic attor-
neys, Gov. Beckham, it is said, has
about made up his mind to call an-
other extra session of the legislature
for the purpose of redistricting the
state according to the provisions of
the constitution. The fact that the
Republicans in the general assembly
have decided to test the constitution-
ality of the redistricting legislation
enacted at their regular session of
1906 and previous legislatures has
caused a feeling of uneasiness to
come over the Democrats, for emi-
nent attorneys have given their opin-
ion that the contention of the Re-
publicans will be sustained in the
courts.

The Democratic representatives in
congress are also fearful that the
present law is unconstitutional. They
fear that the question might arise af-
ter the November election, and it
would serve the Republican opponent
as grounds for contest. They believe
that if the question was raised in the
national house of representatives
their seats would be forfeited, and
they are anxious that the defects in
the present law be remedied. The
Democratic congressmen seeking re-
election, it is said, will also urge the
governor to call the legislature in
extraordinary session.

Since the Republican members in
the general assembly made known
their intention to test the constitu-
tionality of the redistricting bill the
Democrats have found that their po-
sition is untenable. From eminent au-
thorities they have learned that the
Republican position will be sustained
in the courts. They have been told
that the redistricting legislation en-
acted at the sessions of 1893, and
1906 is clearly invalid, and that the
court of appeals will, when the ques-
tion is submitted to that body, hold
it to be unconstitutional.

When the redistricting bill was up
for passage at the last session of the
legislature, the Republican members
warned the majority that the bill
was unconstitutional, and that they
would have the courts pass on the
matter. These threats were not taken
seriously, but the action of the com-
mittee of senators and representa-
tives, of which Senator A. S. Bennett
was the chairman, in retaining emi-
nent counsel to institute proceedings
in the courts has caused the Demo-
crats no little concern.

LUSTER DECLARED INSANE.

Was Accused of Killing His Wife at
Guthrie.

Elkhart, Ky., March 30.—The case
of the commonwealth against Tracey
C. Luster, charged with having mur-
dered his wife at Guthrie, was called
for trial yesterday afternoon. The
defense introduced fifteen or twenty
witnesses who testified that defend-
ant's mind was unsound, several tes-
tifying that he had been in that con-
dition for several years.

The jury after being out only five
minutes returned a verdict pronounc-
ing Luster's mind unsound.

Luster has been steadily growing
weaker ever since he has been con-
fined in jail. He eats very little and
cannot talk above a whisper. He will
be taken to the asylum at Hopkins-
ville.

Graves County Killer Bonded.

Mayfield, Ky., March 30.—A mo-
tion for bail in the Will Houseman
case was argued Thursday morning
before Judge Bugz in circuit court
and the bail was fixed at \$1,200.
Bond was executed Thursday after-
noon and Houseman was released
from custody. He was indicted on the
charge of killing Flem Poplin.

High Waters Proving Damaging.

Petersburg, Ind., March 30.—Ow-
ing to incessant rains a flood situa-
tion confronts this city. White and
Patoka rivers have left their banks
and are flooding thousands of acres
of corn land. Many farmers are
leaving the bottoms and taking their
live stock and perishable goods
with them.

RESENTED IMPOSITION.

Boy Killed Man Who Abused Him
Too Often.

Henderson, Ky., March 30.—Ira
Williams, a boy 17 years of age, killed
William Cutler at the Coquillard
Wagon Works here.

Cutler was one of the foreman and
had trouble with the boy two weeks
ago. He ran a truck over the foot of
the young man and he grabbed a
standard and hit Cutler in the back
of the head.

ADMITS HIS GUILT.

And to Prevent Lynching Is Moved
by Authorities.

La Junta, Col., March 30.—Rev.
W. Gouley Connell, former pastor
of the Presbyterian church of Lamar,
held for trial on a charge of immoral
conduct, is safely lodged in jail here,
after having been hastily removed
from Lamar to prevent lynching.

CONCERNING COAL

THE QUESTION IS NOW AN IN-
TERESTING ONE FOR PA-
DUCAH CONSUMERS.

Local Dealers Do Not Know What to
Expect and Say Operators
Do Not.

A coal famine is imminent in Padu-
cah. Some of the big consumers are
now only getting enough coal to run
from day to day and do not know
where they will be when the big
strike, which is called for April 1st,
goes into effect. The railroads have
been laying in supplies of coal for
many months in anticipation of the
strike, but even they are not in the
best possible condition for meeting
the situation.

MOB IN MARYLAND

Prevents Sheriff From Executing a
Sentenced Negro Murderer.

Baltimore, Md., March 30.—This
morning much disorder prevailed at
Towson Seat, Baltimore county,
where the authorities attempted to
hang Isaac Winder, colored, a murder-
er and jail breaker. The people
tore down the barricade erected
about the jail yard and the police
were unable to cope with them. The
crowd was so dense the sheriff was
unable to execute the negro, who
could not even be taken to the scaf-
fold. Sheriff Elliott expects to car-
ry out the law, but his ability to do
so looks hopeless.

LATER—Winder was finally
forced through the crowd and hanged.
He struggled and fought desperat-
ly, but was beaten into submission
by Sheriff Elliott and several as-
sistants and placed on the trap. This
was the most exciting scene ever
witnessed at an execution in Mary-
land.

Is Resting Easy Today.

Columbus, Ohio March 30.—
"Gov. Pattison during the latter part
of the night obtained relief from
restlessness from which he suffered,
is resting easy today." This was the
statement from the executive resi-
dence today.

Killed 250 Miners.

Tokio, March 30.—By an explo-
sion in the Takashima coal mine
near Nagasaki yesterday 250 miners
were killed.

MITCHELL ORDERS MINERS TO QUIT

Surprise in View of Expected
Conference Next Week.

Operators Had Petitioned President
Roosevelt to Name an Investi-
gating Commission.

LATEST CONCERNING TROUBLE.

Indianapolis, March 30.—The coal
operators of Illinois, Indiana, Ohio
and Western Pennsylvania who have
opposed the payment of any increase
in wages to miners, met last night
and at a late hour made public the
resolutions which were adopted in
executive session.

The preamble sets forth the meet-
ing of the joint conference at the
suggestion of the president of the
United States and its failure to reach
an agreement. The resolution fol-
lows:

"Resolved, That we, the coal op-
erators of Illinois, Indiana, Ohio and
Western Pennsylvania representing
at least 80 per cent. of the tonnage
in the territory involved, who have
felt, and still feel unable to pay any
advance in wages at this time, do
hereby propose that the president of
the United States appoint a commis-
sion to investigate all matters which
in the judgment of such commission
have an important bearing or rela-
tion to the scale of wages which
should be paid all classes of labor in
and about the coal mines of the ter-
ritory herein involved and other con-
ditions imposed and insisted on by
the United Mine Workers of America,
such commission to report to the pres-
ident of the United States its find-
ings of facts, together with its rec-
ommendations.

"Resolved That such commission
have power to administer oaths and
compel attendance of witnesses."

The resolutions in full were tele-
graphed to President Roosevelt last
night.

Mitchell Issues An Unexpected Order

Seranton, Pa., March 30.—Presi-
dent Mitchell's order for the anthra-
cite miners to suspend work Monday
which was issued last night, cre-
ated the wildest excitement in an-
thrastite field when circulated. The
order came as a surprise, nothing of
the kind being expected until after
meeting of the miners and operators
in New York next week.

Ryan Against Arbitration.

Indianapolis, March 30.—The com-
munication from the operators re-
garding their appeal to President
Roosevelt was received at the miners'
conference this morning. There was
no action.

The motion on file with other
miners for future reference to
question of signing the scale in in-
dividual districts, as asked for by
F. L. Robbins, was taken up. During
the discussion Delegate Ryan said he
did not want the convention to place
itself in a position where it will have
to arbitrate.

Miners Against President Intervening

Indianapolis, March 30.—Presi-
dent Mitchell as answer to the ap-
peal of the bituminous operators,
wired President Roosevelt that 50
per cent of the operators are willing
to sign the scale demanded by min-
ers. This means the miners believe
there is no cause for president inter-
vening.

Operators Will Close All Collieries.

Wilkesbarre, Pa., March 30.—The
anthracite coal operators as result
of the suspension orders issued by
the miners last night at Indianapolis,
will close every colliery in the entire
anthracite field. They are rushing all
preparations for defense of collieries,
etc.

RADICAL SALOON LAW.

Applicants for License At Bluffton
Pass An Examination.

Bluffton, Ind., March 30.—The
city council has increased the price of
retail liquor license to \$250 a year,
which is the limit, and the ordinance
also requires that the applicant must
pass an examination before the city
council in order to be licensed. They
will be required to show that they
are men of good moral character, who
have not violated the liquor law, and
that they will comply with its re-
quirements. They are also compelled
to file their application five days be-
fore the meeting of the city council,
and the city attorney must attend
and examine as to their moral quali-
fications. Two violations of the law
will make it possible for the city
council or the mayor to revoke the
license and the third violation makes
it compulsory upon the city council
to do so. The clerk is penalized for
issuing a license to an applicant who
has not been examined, and the may-
or is empowered to see that all laws
against the traffic are enforced.

WAS CLOSE CALL

BOY ALMOST DRAWN ON RE-
VOLVING SHAFT AT THE
BASKET FACTORY.

Troy Dill, a fifteen-year-old boy
residing on Hayes avenue and em-
ployed at the basket company plant
in Mechanicsburg, narrowly escaped
possibly fatal injuries this morning.

The boy was working near a
"clutch" pulley when his trouser
leg caught therein. His leg was rap-
idly drawn into the shaft but before
he had been drawn in too far a com-
panion grabbed his arm and pulled
him back. The trousers were weaker
than the companion and parted,
leaving the Dill boy standing in the
machinery room minus this portion
of his dress.

His leg was skinned by the contact
with the pulley, but the injury was
comparatively slight. It was dressed
by Dr. Carl M. Sears. The boy
would have been dashed around by
the fast revolving pulley had his
companion not caught him in time
to prevent his being drawn into the
shaft and probably killed.

FIEND ESCAPES BENTON JAIL.

Was Confined On Charge of Most
Serious Nature.

Benton, Ky., March 30.—J. C.
Carman broke out of the Benton jail
Tuesday night and has not been cap-
tured. He was in prison on the
charge of attempted criminal assault
on his daughter and when lodged in
jail a week or more ago made an at-
tempt to commit suicide by hanging
himself but was mighty delighted to
learn that he had failed.

Carman is from the Calvert City
section of Marshall county but has
evidently not lived in that county
long. He is about 45 years of age and
is low, heavy set and wore a rain hat
when he left jail. Jailor J. M. John-
son has offered \$10 reward for his
return to him.

Smallpox in Mayfield.

Mayfield, Ky., March 30.—A big
yellow smallpox flag floats in breeze
in front of the home of Charlie
Fisher on South Sixth street as that
gentleman is confined to his room
with a case of it. There are now
four cases of smallpox in this city.

SNATCHED FROM

A VERITABLE GRAVE

Fourteen Entombed Miners
Found Alive After 20 Days.

Were Imprisoned in Great Disaster
at Lens, France, Early This
Month.

A REMARKABLE EXPERIENCE

Lens, France, March 30.—Four-
teen more of the miners entombed in
the Courrieres' mine at the time of
the great disaster on the 10th of this
month were taken from the mine
this morning by a searching party
which had persisted in its efforts to
find them or their bodies since the
day of the horror. There were 1,800
miners in the mine the day of the
accident, which resulted from an ex-
plosion of gas, and only a small part
of these then escaped perhaps 150
fleeing to safety in various ways.
Later something like as many more
were found more or less hurt by re-
scuing parties and taken from the
shaft. Since then the work of rescue
has continued and much to the sur-
prise of any one the party saved to-
day were found alive in that section
where the mules were stabled. The
appearance of the men with their
rescuers at the mouth of the pit
created the greatest excitement.

The rescued men lived the twenty
days they were confined shut out
entirely from light and almost de-
prived of air and when reached with
one exception all were well. After
being found the men were taken to
the foot of the shaft and quickly
lifted to the ground above to the
arms of relatives and families who
had long concluded that they were
dead.

Every one of the rescued men had
a more or less horrifying experience
to relate. All united in saying that
when the explosion occurred and
they recognized that they were cut
off from escape by the shaft, that
they took refuge in the stables
wherein the mine mules were kept
and there subsisted for days on the
lunches which they or their asso-
ciates had taken into the mine the
day of the disaster. These lunches
were made to last as long as pos-
sible, but after they had been eaten
up the men say they turned for food
to the wheat and oats which was in
the feed bins and troughs for the
mules. There was, however little
nourishment in this food and it was
but a matter of a few hours when
they would have succumbed, judging
from their condition when found.

One of the rescued miners was a
boy of fourteen who endured the
hardships to which all the others
were subjected with apparently as
little harm as any of the others sus-
tained.

It was all the time thought that
some of the imprisoned men had
found their way to the mule stables
and would be found there, but it was
little expected after so long a con-
finement that any of them would be
found alive.

Only Rolling Stock Injured.

gers escaped.

OUR FASTEST BATTLESHIP.

The New Jersey Can Outstrip Any
Other War Craft.

Washington, March 30.—It has
been well demonstrated that the bat-
tleship New Jersey is the govern-
ment's swiftest traveler. Her per-
formance yesterday in maintaining a
speed of 19.18 knots an hour in a
four-hour endurance trial coupled
with her remarkable speed Wednes-
day at an 19.48 knots an hour gatt
places her at the head of all Ameri-
can built battleships, so far as speed
is concerned. Her average speed of
19.18 knots per hour is compared
with 19.01 made by the Rhode Island
and 19 knots by the Virginia, sister
ships, at their trials a few months
ago.

At one time yesterday the New Jer-
sey's speed reached 19.27 knots an
hour for 15 minutes while her low-
est for a similar period was 18.96.

WORST FLOODS IN YEARS.

Platt River Overflows Its Banks Cau-
sing Great Damage.

Denver, March 30.—Wyoming is
experiencing the worst floods of re-
cent years. The Platt river from the
Colorado line to the Nebraska line, a
distance of 500 miles has overflowed
the banks, flooding the adjacent coun-
try. Reports of missing ranchmen,
damage to ranch and other property,
and the drowning of livestock are re-
ceived. The floods are due to the
melting snow.

HEAVY RAINFALL.

THIS MONTH'S FALL PROMISES
TO EXCEED 1904'S RECORD.

Outlook Is, Therefore, Good for Just
Such a River As That of
Year Named.

The rainfall this month bids fair
to exceed that of two years ago, dur-
ing 1904, when the river rose to an
excessive stage and threatened a du-
plication of the conditions in 1884.
With two more days to go on the fall
will, from every indication, exceed
seven inches, the maximum in 1904.

The records in Weather Observer
William Borneman's office show the
rainfall since the first of the month,
to be 6.72, and since yesterday morn-
ing a fall of 1.45, a very heavy fall
for one day and night. The indica-
tions are for more rain and Observer
Borneman thinks that there will be
a high stage of water this spring.

"The rain has been unusually heavy
this year," Mr. Borneman replied in
answer to a Sun reporter's query.
"and it looks like we will have high
water this season if it does not cease
raining soon. I find after examining
my records that the rainfall for
March to date is 6.72, while in March
1905 it was only 3.70. In March 1904
the rainfall was 6.99, but there are
two more days to go on yet this
month before the maximum is re-
corded, and it looks like this month
will go ahead of 1904."

The weather records show an un-
usually high stage of the river in
1904 and the conditions were in a
measure the same as they are now,
only worse this year in many ways.

BELL ORDERED TO WASHINGTON

Will Be Promoted to Chief of Staff
April 14.

Washington, March 30.—An order
issued at the war department di-
rects Brig. Gen. Franklin Bell, in
charge of the staff college at Fort
Leavenworth, Kan., to repair to this
city not later than April 9 and report
to Lieut. Gen. Bates, chief of staff,
for assignment to duty. April 14 is
the date fixed for the retirement of
Lieut. Gen. Bates, the promotion
of Maj. Gen. Corbin to the rank of
Lieutenant general and the installa-
tion of Brig. Gen. Bell as chief of
staff by presidential designation.

"Immortal J. N." Free Insane.

Upper Sandusky, O., March 30.—
The "Immortal J. N." Free was ad-
judged insane today and sent to the
State hospital at Toledo. Free is
known all over the country as the
man who has been trying to "lift the
veil" and "put on the pressure" for
years. He has traveled throughout
the United States and never paid a
cent for railroad fare. He is 78 years
old and broken in health.

Raise Price of Glass.

Pittsburg, March 30.—Represent-
atives of 80 independent window-
glass manufacturers voted to advance
the price of their product 10 per
cent.

PADUCAH GUESTS

SHOWN THE CITY

Special Trains Provided by Local
Roads to Commercial Club.

Capitalists Are Seeking Factory Site
for a Branch of Big
Concern.

ARE ROYALLY ENTERTAINED.

Two capitalists who are looking
for a location to establish a branch
of a big manufacturing plant are in
the city today and being shown over
the city. They are guests of the
Commercial club, and the Illinois
Central and N. C. & St. L. roads, to
show their liberal attitude towards
the city, are assisting in showing
them around the city.

The I. C. has furnished a special
train with full train crew and given
the conductor the right of way all
over the local terminals, in order
that the Commercial club be given
every advantage and convenience to
show the visitors the city and her
many vast manufacturing enter-
prises and factory sites.

Supt. A. H. Egan was in Paducah
last night and liberally donated the
services of the special train, even his
own private car, to the use of the
Commercial club for the day. The
train is composed of private car No.
405 and engine No. 1169, and is in
charge of Conductor J. O. Hancock
and Engineer A. W. Shepherd. The
train crew received orders to take
the party over the entire local sys-
tem, all the spur tracks and into all
the manufacturing branch lines, and
in fact show the party everything
there is to see on the lines of the
road.

A party of active members of the
Commercial club boarded the car at
First and Broadway with the visitors
this morning between 8 and 9 o'clock
and the trip began. After a thor-
ough inspection of the manufactur-
ing plants, railroad shops and other
interesting points on the I. C. lines
the party was turned over to the N.
C. & St. L. road to make an inspec-
tion of the factory sites touched by
this road. The N. C. & St. L., like
the I. C., extended liberal privileges
to the party.

For the best interests of the club,
which is endeavoring to capture the
location of the plant for Paducah,
the names of the visitors are with-
held from publication. It is said,
however, that the latter were great-
ly impressed with the location of
Paducah; her resources and the rail-
road facilities and spoke highly of
her chances of getting the industry.

RUSSIAN DEMOCRATS

Won Generally in the Elections Held
There Yesterday.

St. Petersburg, March 30.—The
constitutional Democrats have won a
sweeping victory in the municipal
elections in cities and towns in St.
Petersburg district outside the cap-
ital itself. Their ticket, including one
of the Hessen brothers, who were
concerned in the movement to set
up a provisional government in Jan-
uary last year, following the mass-
acre of workmen in St. Petersburg,
completely buried the conservative
parties. It is understood the dele-
gation took a solemn pledge to demand
that the national parliament call Pre-
mier Witte and Minister of the Inter-
ior Durnovo to answer for acts of
repression committed since the man-
ifesto of October 10.

JAPAN TO BUY HER RAILWAYS.

Decision to Take Them All Over
Work of Parliament.

Washington, March 30.—Japan
has decided to take over all the rail-
roads of the empire. The Japanese
parliament passed a bill for the gov-
ernment purchase of all the principal
railways in the empire, according to
advice received at the state depart-
ment from Secretary Huntington
Wilson of the American embassy at
Tokio.

The purchase of the railways will
involve about \$175,000,000, the pres-
ent owners receiving 5 per cent gov-
ernment bonds for their property.

Street Carmen Strike.

Oakland, Cal., March 30.—At an
early hour this morning the motor-
men and conductors on all the street
cars of Oakland, Alameda, and Berk-
ley voted to strike. They are seek-
ing an increase of wages and im-
provement in the work.

president of the Scott Hardware Co.;
Chas. E. Graham, formerly county
court clerk; R. E. Ashbrook, former-
ly insurance and real estate agent;
Geo. H. Goodman, president of the
wholesale liquor firm of Geo. H.
Goodman & Co.; S. L. Levy, of the
well-known firm of Loeb, Bloom &
Co., wholesale liquor dealers; B. H.
Scott, of the Smith & Scott Tobacco
Co. and president of Mechanics &
Farmers Savings bank; Oscar C.
Hank, representative of the Ameri-
can Snuff Co. in the Western tobacco
district; R. B. Ashbrook, formerly
deputy county court clerk, all of Pa-
ducah, Ky.; Chas. H. Davis, president
Second National bank, Robert M.
Cox, of the firm of Claud & Cox,

DANGER TO STREET FILL.

Rising River Threatens the Construc-
tion on West Caldwell Street.

The rise of the Ohio is easily seen
in the accumulation of back water in
the hollows surrounding the city.
Near the Katterjohn brick yards and
depot the water is coming up fast.

The fill on Caldwell street is still
slipping away near the last bridge
out, but the city is taking what steps
necessary to prevent any serious
damage being done. If the water
continues it may mean a duplication
of the disaster to the fill, which half
slid away three years ago, and cessa-
tion of traffic over this street indefi-

EATEN OUT OF HOUSE AND HOME

How a Confirmed Dyspeptic Develop-
ed An Appetite Like a Corn-Hus-
ker's and Cleaned Out Everything
in Sight.

The wife of a leading druggist of
Des Moines tells how her brother was
changed from a dyspeptic without ap-
petite to a prodigious eater.

"My brother, who is a lawyer in
Chicago, came to visit me and I
hardly knew him on his arrival he
was so thin and run down. I had
not seen him for years and was much
alarmed at his appearance. He told
me not to worry as he had been in
this condition for years as a result of
chronic dyspepsia. I asked him what
he had done for it, and he said he
had done everything—taken every
remedy he had ever heard of and con-
sulted doctors without number, none
of them helped him. I asked him if
he ever took Stuart's Dyspepsia Ta-
blets, and he said he hadn't and what
was more he wouldn't. He had sworn
off taking medicine of any kind.

"I had my husband bring home a
box from the store and I actually
made him take one or two of the ta-
blets after he had eaten. They made
him feel so much better that he offered
no further objection. He had not
taken the one box before he was
greatly improved and three or four
boxes cured him of dyspepsia and
gave him a wonderful appetite. He
came near eating us out of house and
home. My, but it did me good to see
him eat. He gained 15 pounds be-
fore he returned home, and he writes
me that he has not been troubled
with dyspepsia since."

Stuart's Dyspepsia Tablets actual-
ly do the work assigned to them.
They relieve weak and overburdened
stomachs of their work of digestive
fluids and secretions of the stomach
and they simply take up the grind
and carry on the work just the same
as a good, strong, healthy stomach
would do it.

On this account Stuart's Dyspepsia
Tablets are perfectly natural in their
action and effects. They do not cause
any unnatural or violent disturbance
in the stomach or bowels. They them-
selves digest the food and supply the
system with all the nourishment con-
tained in what is eaten and carry out
Nature's plans for the sustenance and
maintenance of the body.

Stuart's Dyspepsia Tablets, by thus
relieving the stomach of its work,
enable it to recuperate and regain its
normal health and strength. Nature
repairs the worn and wasted tissues
just as she heals and knits the bone
of a broken limb, which is of course
not used during the process of re-
pair.

Stuart's Dyspepsia Tablets are for
sale by all druggists at 50 cents a
box. One box will frequently effect a
perfect cure.

THE DRIVING CLUB.

Some Racing Promised Local Sports-
men—Plans of Club Discussed.

A great deal of interest is being
taken in the actions of the Paducah
Driving Club, a recent organization,
and the regular election of officers
to serve the initial year's term of the
association's existence will be elected
Monday night.

Robert B. Phillips is mentioned
for president, George C. Wallace for
vice president, George Goodman for
secretary, Col. Ben Weille for treas-
urer. It is tipped that this will be
the roster for the first year.

"The club intends to give Paducah
some high class amusements
which she has just had a taste of," a
member of the association stated to-
day. "The first year—this summer—
we will give a horse show and pro-
pose to eclipse the show of last fall.
Next year we hope to be in a posi-
tion to give races, and after that the
races and horse show will be fea-
tures of the sporting life in Paducah.
The ground we purchased is large
enough for a one mile race track and
we will make a fine one when a start
is made. These are plans the club
has discussed and definitely decided
on. The racing feature will take place
when inaugurated, during the day,
and the horse show at night."

The members of the association
and others who are indirectly inter-
ested, are men who do things not
by words but by actions, and Paducah
will in a comparatively short
time once again take her place in the
sporting world in the state.

Joked From a Wagon and Hurt.

Mr. Ted Smith, of the county, re-
ports an accident to the family of
Mr. Caleb Harrison, last Monday. Mr.
Harrison was moving his family from
the city to the county, and on account
of the bad conditions of the road go-
ing to Grahamville, Mrs. Harrison
and her infant baby were jolted from
the wagon and severely injured.

PENNSYLVANIA LINE

IS REPORTED TO WANT CON-
TROLLING INTEREST IN
THE L. & N.

What Bearing, If Any, It Would
Have On Paducah — A
"Newspaper Story."

All railroads and capitalists have
their eyes turned southward, and are
making efforts and laying plans to
get southern railroad connections.
The New York Central is reported as
seeking a southern outlet, and now
the press dispatches chronicle the
statement that the Pennsylvania sys-
tem is seeking to get a controlling in-
terest in the L. and N.

The purpose of the Pennsylvania
in making the investment in Louis-
ville and Nashville securities is to
get an outlet to the gulf in order to
handle the large business which will
naturally accrue during the building
of the Panama canal. At the general
offices of the Louisville and Nashville
in Louisville it was stated that noth-
ing was known of the deal. The
Louisville and Nashville is now con-
trolled by the Atlantic Coast Line.

Paducah will be interested in this
report, as it is very much interested
in the effort now being made to get
the L. and N. to build its proposed
road from the N. C. and St. L. to
Cairo via Paducah, and the questions
suggests itself would the Penn-
sylvania do it if it should get control
of the road.

The report, it is true, "is only a
newspaper story," but will be watch-
ed with interest here.

Supt. A. H. Egan and Roadmaster
F. L. Thompson, of the Louisville di-
vision of the I. C., are looking after
their division rather closely relative
to the coal situation.

"We are moving coal as fast as we
can get it and storing it away; yet
we are not confiscating any from the
consumers," Mr. Egan stated. "We
are furnishing the mines all the cars
they can load and are moving the
coal trains as fast as they are fur-
nished us. We anticipate no trouble
from the strike question, but it is the
policy of the railroads to prepare for
possible emergencies, and this is
what we are doing."

Coal is still being hustled into Pa-
ducah and other southern towns for
storage, and it is said the mine op-
erators are working extra hours and
all men possible to secure before
April 1, the date set by the miners
to cease work if the increase deman-
ded is not met.

The early morning fast passenger
train No. 104 from Memphis to
Louisville was delayed four hours
this morning by a small freight de-
railment two miles north of Mem-
phis. Four loaded freight cars were
derailed and the clearing of the
wreck caused the delay to the train.
It arrived at 7:30 o'clock.

Mr. John T. Donovan, local agent
for the I. C., will today forward bids
of local furniture men who desire to
fit out the downtown ticket office, to
the officials at Chicago for ratifica-
tion or rejection. If the bids are
not too high local men will be given
preference over Chicago dealers. Mr.
Donovan hopes to receive notice of
the acceptance of the local bidders'
figures next week, so the office can
be immediately fitted out for use.

The local I. C. wrecking crew went
out with the wrecker this morning
to the Nashville division to work a
derailment.

Master Mechanic R. J. Turnbull
went to Princeton this morning on
business.

Trainmaster L. E. McCabe, of the
Paducah district, who fell at the
Central City depot several weeks
ago and injured his right arm, is
still suffering from the injured mem-
ber. The arm is slowly mending
but has to be worn in a sling yet.

The management of the local I.
C. lunch room, which is controlled
by the National Hotel company of
Chicago, has changed hands, and
Manager F. E. Morris, who came
here several months ago from Hot
Springs to take charge, has gone to
Chicago to reside.

He is succeeded by Mr. O. F.
Snail, of Chicago, and Mr. Snail is
now in charge. The depot lunch
stand has been improved greatly
since the hotel company took hold of
it, and serves meals and lunches in
any style.

fers a fair and square deal, stock be-
ing sold for the purpose of develop-
ing valuable mining properties. 15

Confectioner Keeps Shop Open All
Night—Caters to All Classes

Angel-Coutis is the name of a
Greek boy, a late addition to the
colony in Paducah, who has either
successfully solved the problem of
sleeping with one eye open or who
thinks every one as good as his sur-
name proclaims him to be.

Angel is employed in the Jfm Vla-
holes fruit and confection store on
Broadway near Third street. He is
permitted to sleep in the store and is
expected to be a combination man-
clerk and watchman. The boy is of
slight build and true to the foreign
instinct keeps open late—probably
to catch the early bird. He often so-
lids aid in moving the enormous ba-
nana bunches in from the front of
the building where they hang, and
to tussle with the heavily laden fruit
stands; and occasionally he is un-
successful in finding a willing hand.

It so happened Tuesday night and
Wednesday morning at 5 o'clock a
lone pedestrian made his way down
Broadway. His attention was attracted
to the brightly lighted confection-
ery front. The gasoline lamp cast a
halo of light about several bunches
of bananas and a heavily laden fruit
stand. There was a peanut roasting
machine close by, and the front door
of the building was closed. From ev-
ery indication the proprietor had
closed his store and forgotten to
take in his fruit.

The pedestrian crossed the street
and peered in. The reposing form of
Angel was clearly visible. The boy
was seated in a chair and from every
indication was in the land of nod.
The pedestrian moved on not disturb-
ing the sleeper, but took occasion to
gratify his curiosity later. The boy
claimed he was not asleep yet his
eyes were closed. No fruit was mis-
sed and the pedestrian is still figur-
ing on the puzzle.

The boy was too light to bulge the
heavy fruit stands and to lift the
bananas off their hanging, and as the
hour was late and no one convenient
to aid him, he closed the doors to
keep out the cold and settled down
to watch.

"Some times I sleep at night and
some times I keep open," the boy
explained to a reporter in broken En-

glish. "Some times business good,
some times bad, when good I keep
open late, some times all night, I
please all."
This will probably prove a pace
too swift for local merchants, and
Angel, if he remains, will soon be in
a class all by himself.

GOOD COUNTY ROADS HELP THE CITY

Former Mayor Lang Says We
Should Have Many.

Show the Benefits That Accrue From
Good Roads Into Every
Town.

THE FARMERS WANT THEM

Former Mayor James M. Lang has just returned from a trip through the county and Graves county in the interest of his stock food business, and a representative of The Sun, knowing that he could speak with authority on the subject, asked him today about the condition of the county roads and what he thought of the proposition of the fiscal court not reducing the county tax rate this year, but taking the 5 or 10c which it finds the rate can be reduced, and applying it to the construction of gravel roads for the county.

"I want to say, first," he replied, "that County Judge Lightfoot and Road Supervisor Johnson deserve great credit, and the thanks of the people of the city and county, for the uniform good condition of the roads, and, especially, for the gravel roads that have been put down under their administrations. I was surprised at the condition of some of the roads. Roads that I know were notorious for being impassable at this season of the year I found graveled and better than most of our city streets. I found this the case not only once, but in numerous places, and it is certainly good to see."

"I went over roads that you could use your Sunday go-to-meeting buggy on right now, when the roads are, as a rule, bad, and never hurt it. And the people appreciate them, too. Just as an illustration of the benefits of good roads, I shall cite you to what I learned in two or three neighborhoods of Graves county—neighborhoods that should under normal conditions be territory for the Mayfield merchants. I learned that in several of the neighborhoods the people are planning to build gravel roads of their own to the McCracken county roads as the people say it would be far easier then to come to Paducah, than to go to Mayfield. And I agree with them. Does that not speak, and speak loudly for good roads?"

"Let us have all the gravel roads in the county we can, I say, and let us build them as soon as we can for there is nothing as beneficial for the citizens. The gravel roads make it, easy for the farmers to come to town with their products, and this adds to the volume of such products and lowers the prices. Thus, I hold, good roads are a benefit to the housekeepers of the city in very great measure. They are as valuable to the blacksmith on Kentucky avenue, or the machinist at the shops, as they are for the county people as they, in this way, make for lower prices on food supplies."

"The city, too, is more benefited by good roads than the county people for this reason. Take the Clark's River road as an example. Is it of any benefit to the people living on the Cairo road? None. But how about the city? It is for the city because it enables the people on this road to come to town to sell and buy and is, too, of benefit to the people on the road. Take all the roads around town, and you will agree that they benefit only the people on these roads and the city, and, therefore, I contend that the city is by far the greatest reaper of benefits from the good roads than the county citizens."

"Everywhere I went I found the people anxious for good roads as they could get to the city, and I think the citizens should agree that they should have them. Nothing will do more to build up the town than good roads running into it, and, I say let us build all the good gravel roads into Paducah that are necessary. The results that will accrue from the stimulation to the retail trade, and the savings it will bring about by the lower price of food products will more than offset the outlay in taxes."

—Paducah Bullfrog Gold Mining Co.'s stock sold at 15 cents per share par value \$1.00 full paid and non-assessable, until April 1.

WHEN THE SMOKE OF BATTLE CLEARS

The Sporting Editors' Battle Nearing a Finish---What Will the Fatalities Number?

Sporting editors all over the Kitty league, especially in Illinois towns, are devoting a great deal of space and time to individual players; their past deeds, and indulging in all kinds of hallucinations and prophecies relative to their teams, and it has set the fans in Old Paducah wondering what they will do when the season opens and the "bobbles" begin.

"Pap" Farnbaker, in the Cairo Bulletin, adds fuel to the fire with a few occasional jollies and exchanges of caustic courtesies, but at the same time is laying in a supply of "I told you so" ointment; but it won't be that of soothing properties by any means when he does open up the box and applies the salve to the sporting writers in his state towns.

Anti-season dope is always readable, and is absolutely necessary to the proper promotion of interest in the game, but some times the nostrils become inflamed and it is well to hit the dope pipe rather lightly—at all events cautiously—and thereby save a strong stomach for the regular season.

What will the editors of some of the Illinois towns say when "Tommy Lightning," of fast fame, bobbles in a squeeze play and loses the game—incidentally several hundred of his team's supporters' coin? This is where "Pap" Farnbaker, and others, who are too wary to be caught lauding the players before they are "shown" come in with the "I told you so." But what will the dope artists do then?

Well, it will be a hard pill to swallow. They can't all be on the top of the percentage column, and it might be well for some of the editors to lay back on their oars and play the Missouri game. Chief Lloyd for one, says "show me" first.

Take Paducah's experience in baseball management since the Kitty league started. Did we not have Danny Sweeney, the man who cut such a swath in the National league; and was there not old Tommie Chi-

ford who scintillated in the old Central league when Paducah and Cairo stuck out until the last in the frenzy of jealous battle for the rag—incidentally for the forfeit money which caused a scramble when the league took its third plunge and sank to the bottom? Were there not "others" who had performed miracles in the national game, and what did it all amount to when the season opened? The papers had won and re-won the pennant several times for their home teams, but the sadness of the awakening. The way those has been showed up in their work! It took Paducah three seasons to wake up, and now the fans think it time to "say nothing and saw wood"—at least that is what they are doing.

"Chief" Lloyd gave us a winning team last year, and the old warrior is again resorting to the same tactics applied last year—that of silence—but he promises a winning team and that is satisfactory to the fans.

Let the band play on and the clowns dance and when the Big Show is over the Indians will be on exhibition on the concert stage—10 cents, a dime only, the admission—Any one else, any one else?

Bobbie Wathen, one of the loyal fans, is intent on having the first game of the season Sunday—that is if the sun shines—and the following is the lineup of the teams if the game is played:

All Professionals. Stags.
Eddie Brahe Jerome Smith
Harry Lloyd Harry Arnold
Bobbie Wathen Charlie Sands
Kenney Murray Hug Garrett
Dick Brahe Geo. Johnson
Henry Dicke Clarence Clark
Fred Swenter Lon Davis
Alonso Hedges Louis Schafer
John Jones Frank Dargal
Umpire—Pete Dunn.

Frank Bassett, of Hopkinsville, a former Kitty league manager, who is trying to organize a small league of Hopkinsville and other West Ken-

tucky towns, wants Mayfield to join and has written a letter to Judge Bunk Gardner, of that city, asking him to interest the Mayfield fans if possible. Mayfield is a good ball town and may hold her own even with Owensboro, Henderson and other towns much larger.

Today is the last day that you can buy stock in the Paducah Bull Frog Gold Mining Co. at 15 cents per share, if you have failed to get a block of it we are sorry, but can advise the purchase at the advanced price 17 1-2 cents per share, you will make money at that price. IMPORTANT QUESTIONS.

The fiscal court meets next Tuesday, and it has a number of very important matters to consider.

It will, one thing, consider the question of submitting to a vote this fall the proposition of subscribing to a college for Paducah and issuing bonds for the contribution. The legislature passed an act authorizing counties to subscribe to college funds but the members of the court are not sure whether it is constitutional or not, and have asked County Attorney Barkley for an opinion on the question, and he is now engaged in looking up the law.

The court has also asked him to ascertain if it can increase the salary of the circuit judge during an incumbent's term of office. A measure authorizing this was also passed by the legislature, and if the increase can be made during an incumbent's term Circuit Judge Reed's salary will most probably be raised.

The court will also fix the tax rate for the year. It has found that the rate can be reduced five cents, and probably ten cents, and some of the members, as well as Judge Lightfoot, are in favor of doing so, while other members and a number of citizens are in favor of leaving the rate as it is and appropriating the amount the rate could be lowered to the road fund so more gravel roads can be built.

At the last meeting of the Commercial club a resolution asking the court to do that was passed. There seems to be a dominating sentiment, however, to make a reduction, and leave the road appropriation as it was last year. The appropriation then was \$22,000, and in building new roads the property owners alone, the roads improved bear half of the expense. It requires about \$10,000 a year to keep up the roads so this will leave \$12,000 for the county's part toward building new roads, and add to the \$12,000 from the property owners and the supervisor will have \$24,000 for new roads.

GOOD SUGGESTION.

City Engineer Washington's proposal to have the preliminary work done on the new sewerage district by contract is a good suggestion, and should be considered. It seems to be the best way to facilitate the work—to rush it through, and this is what is wanted. It is imperative that the sewers be extended to the High school, and it is almost as imperative that it be extended to the west end as soon as possible, and this seems to be the way to speed the work.

There is a great demand for the extension of the sewerage system, and the quicker the entire city is seweraged the better it will be. Of course, the scheme to construct a section at a time, one each year, is the best way to extend it, but the

plans should by all means take that intention into consideration.

BONDS FOR COUNTY ROADS.

The question of good gravel roads for the county is receiving a good deal of attention just at present. There is a disposition in some quarters to find fault with the way the funds to build the roads are raised, and the suggestion is being made that the county issue bonds to build the roads.

This seems the logical way to build roads and streets. Posterity derives as much benefit from the roads as the present generation and it should be made to bear its proportion of the expense. This is the way all improvement works of a public nature are being done everywhere in this day and the local fiscal court should consider the matter and place the question of a bond issue for road construction before the people at the November election.

REGARDED FAVORABLY.

A number of the members of the council board look with favor on the Commercial club's request that the city contribute \$1,500 a year to the club's work, but they don't agree on the form of the contribution. The matter will be brought before the council by the finance committee Monday night for action.

The members of the club, and many citizens who are not members, agree that the city should do something in the way of assisting the club, and the probabilities are that the matter will be favorably considered.

Herbert S. Hadley, Missouri's young attorney-general, is receiving much praise from the press because of the way in which he "brought the Standard Oil trust around," etc. It is to be hoped this praise won't make Mr. Hadley think he is of that grade of timber of which presidential candidates are made and he spoiled. He seems disposed to handle himself properly, but the future is yet young.

"We did it at Algiers, we killed the bear," says the Henderson Journal. The general understanding is that it was not a bear killed, but the warlike antics of a kaiser and a war minister which were "sat upon" at the conference. It may be however, there was a bear beneath one of the two and that he was smothered to death when the setting upon act occurred.

It is calculated that the Ohio high license law will put something like twenty-five thousand direct employees of the liquor and beer line out of business. Turn about is certainly fair play; undoubtedly the liquor and beer business has put many times twenty-five thousand Ohioans out of action more than once.

The democrats of Iowa are very much elated over the late municipal elections in that state. They are deluding themselves into the belief that these local contests will count in November, but they won't. The Iowans may be off on municipal affairs, but they are to the good on national issues.

Miss Spring clearly has too many tears to shed.

MRS. P. M. BICHON DEAD.

Succumbed This Morning to the Ravages of Consumption.

Mrs. Enla May Bichon, wife of Mr. P. M. Bichon, the well known grocer of West Tennessee street, died this morning at 6:30 o'clock at her residence, 1100 Tennessee street, of consumption, after an illness of over a year. She was ill in bed, however, but a few days.

The deceased was 18 years old and the daughter of Mrs. John Clark, formerly of this county. The deceased was born in Massac but removed to Paducah immediately following her marriage, November 23, 1904. The deceased leaves a mother, father, husband and one child, an eight month's old daughter.

The funeral will be held tomorrow afternoon at 2:30 o'clock, from the Third Street M. E. church, of which she was a member, with services by Rev. Peter Fields.

A Timely Request.

Rev. R. W. Chiles, the Union Rescue Mission, has had so many demands upon his time recently that he has been compelled to neglect his usual collections, and asks that all who are contributors to the maintenance of the mission will please hand him in their usual contributions. He will, also, appreciate reports from any who wish to subscribe toward the purchase of the mission building. All contributions to the mission will be most acceptable as the needs are many and urgent.

Mr. and Mrs. Chiles have two children at the mission now for whom they are anxious to secure good homes. A little girl and an 8-day-old boy baby were given in their charge yesterday.

—Paducah Bullfrog Co. is a home institution owned and controlled by prominent business men that promise you an honest and able management. The company owns the property and will develop it into a good mine. Investigate. Act without delay and make a purchase of the stock at 15 cents a share before the advance on April 1st.

Services Again Tonight.

There will be services at the Broad way Methodist church this evening, but Rev. J. B. Culpepper, of Iuka, Miss., is not expected to arrive before Saturday. He has been detained at his home. Rev. T. J. Newell preached last night at the church and the attendance was quite good for the inclement evening.

LONG RANGE FORECAST

Is Contemplated by United States Weather Bureau in Near Future.

New York, Mar. 30.—Willis L. Moore, chief of the weather bureau at Washington, announced at the dinner of the Maritime Association that the weather bureau might soon issue forecasts of a whole month. Mr. Moore had been joked hard by Job E. Hedges, when he arose and got permission to add to his speech, already delivered. He then said:

"The weather bureau believes that for the first time in the history of meteorological science it has within its grasp the scientific basis of long range weather forecasting—that is, forecasts of the character of the month to come.

"The details are not yet complete, and the system will not be adopted for several months to come.

"It may be possible, and I believe it will be to tell you New Yorkers and members of the Maritime Exchange before this time next year what the character of the coming month will be."

Mr. Moore said after the dinner that he had not intended to make this announcement at this time, but had planned to give it first to the public through the scientific publications.

ORIGINAL "FRA DIAVOLO"

Once the Terror and Pride of Hungary Just Out of Prison.

Vienna, Austria, Mar. 29.—Josi Cavanier, who, twenty-five years ago was the terror and pride of Hungary has arranged to tour the world under the management of a snow man. His deeds were celebrated in song, and it is claimed that he was the original "Fra Diavolo." A whole romantic folk lore was built up around this wild son of the mountains who never hurt a woman or a poor man, but who boldly attacked the castles of the rich and spent his booty in the relief of distress. He was finally caught and condemned to imprisonment for life. Once in prison he behaved with exemplary correctness and during the twenty-two years he was in confinement earned the good will and even the affection of all with whom he was brought in contact. It was at the request of a bishop at last that the emperor gave him a free pardon and remitted the remainder of his sentence. He at once changed his convict's dress for the same old robber's costume he had put off so long ago, and entered once again into the life of the world. But he found he could not live on his fame without showing himself and so decided on a showman's tour of the world.

Well Worth Trying.

W. H. Brown, the popular pension attorney, of Pittsfield, Vt., says: "Next to a pension, the best thing to get is Dr. King's New Life Pills." He writes: "they keep my family in splendid health." Quick cure for Headache, Constipation and Biliousness 25c. Guaranteed at McPherson's drug store.

Will Employ An Assistant.

The judiciary committee of the council will employ an attorney to assist City Solicitor James Campbell, Jr., in prosecuting the city's case against the East Tennessee Telephone company, but has not decided who it will be. The case will come up in the federal circuit court here, which convenes April 16.

No. 10. The fool—thinks a thing worthless or it wouldn't be offered to him. We can think of no argument for No. 10. We have no time to tell him of Paducah Bullfrog. Too many intelligent business men are buying stock at 15 cents to fool with Mr. Fool. We pass him up.

RIVER NEWS

River Stages.

Cairo, 39.2, 2, rising.
 Chattanooga, 9.6, 2, rising.
 Cincinnati, 35.2, 2.9, rising.
 Evansville, 32.3, 1.8, rising.
 Florence, 8.8, 1.3, rising.

 Nashville, 27.1, 9, rising.
 Pittsburgh, 14.4, 2.4, falling.
 Davis Island Dam, 14.4, 2.2, fall.
 St. Louis, 23, 1.1, rising.
 Mt. Vernon, 31.1, 1.7, rising.
 Paducah, 31.0, 1.8, rising.

The river rose here 1.8 since yesterday morning, the gauge today registering 31.0. The rains were very general over the Ohio valley yesterday and last night, and the big river looked for seems a certainty.

The Dick Fowler got away on time this morning for Cairo.

The Joe Fowler was the Evansville packet today.

The Kentucky came in last night from the Tennessee river and leaves on her return trip tomorrow afternoon.

The Georgia Lee passed up last night for Cincinnati.

The Peters Lee is due down from Cincinnati for Memphis tomorrow morning.

The Saltillo passed down on her way to St. Louis out of the Tennessee river last night.

The Ayer & Lord harbor boat, the Pavonia, is being prepared to go up the river to pick up any ties that may have been swept away by the high water.

The rainfall yesterday was 2.7 inches, and from reports was very general over the state, and the Ohio and Mississippi valleys. All the creeks and streams are swollen and far out of their banks and the predictions of a big stage of water in the Ohio seem in a fair way to being verified.

A run of nearly 2,000,000 bushels of Pittsburg coal is coming down the Ohio for various dealers.

Reports from up the river are of rising streams everywhere, and the same reports come in from the upper and lower Mississippi. There seems now to be no doubt of the Ohio's going to 40 feet here. There are many reports of damage by the rivers.

Advices from Mississippi and Arkansas state that one of the heaviest rainfalls in years occurred Wednesday night. Rivers and smaller streams are overflowed in many areas and crops are partially damaged. Railroad schedules are irregular on many lines and several washouts are reported. The million dollar steel bridge at Newport, Ark., owned by the Gould system, is reported to be in danger, and a large force of workmen are protecting it with logs and other timber.

The Ohio at Evansville, will rise during the next 36 hours, probably fall for a day or two, then rise again at Mt. Vernon, will continue rising during the next 36 to 48 hours. At Paducah and Cairo, will continue rising during the next three or four days. Existing conditions indicate for Paducah a maximum stage approximating 40 feet. If, however, the rainfall over the watersheds is heavy during the next 24 hours this stage will be exceeded.

No. 6. The conceited man—knows where all the best things are without being told. He is like his neighbor No. 5, knows all about it but afraid you want to do him, therefore he does not invest in a good thing like the Paducah Bullfrog Gold Mining Co's stock.

A Kentuckian Dies in Cincinnati.

Georgetown, Ky., March 30.—County Attorney Thomas S. Gaines died yesterday of complication of diseases in Cincinnati, where he had gone for treatment. He was about 45 years old and leaves a widow and three children.

Poker Players Palled.

Wickliffe, Ky., March 30.—The city authorities, as the result of a game a few days since, have pulled a total of 43 poker players, many of them "lights" of the place. The assessment against each player aggregates \$26.40, making a profitable total to the court officials.

Gold Found in Lewis County.

Maysville, Ky., March 30.—At Sharpe, about fourteen miles east of here, in Lewis county, there is excitement over the finding on a farm belonging to a man named Oliver of what is said to be gold in paying quantities. Several barrels of the ore have been shipped to Cincinnati.

where it was found to contain gold. A large wagon load of machinery has been taken to the farm of Fred Heinman, which adjoins the Oliver farm, and work is now under way in digging ore. Years ago Joshua Laman, of this city, secured some specimens of the ore and had it sent to Cincinnati, where it was pronounced gold. He tried to interest the people in the find, but no one could be found who would venture their money in the enterprise.

A Juror Confesses to Belie Taking.

Newport, Ky., March 30.—Commonwealth's Attorney W. A. Burkamp, of Newport, has secured from Wm. E. Monroe, Sr., an affidavit in which, as a juror in three cases, he admits that he had been bribed. He swears he got \$25 in one case and \$45 in another. A judgment in the once case was secured for \$21,000. The defendant in the second case got off free. Monroe swears that he was bribed by one representing the winning side in both cases.

The affidavit implicates a damage suit lawyer, a former Campbell county official, a present official of the county and five others.

It is understood that warrants will be issued against prominent people; that disbarment proceedings will be begun against members of the bar and that arrests will be made.

Attorney W. V. Eaton went to Smithland today on professional business.

WANTS GREATEST NAVY.

Rear Admiral Coghlan Ambitious to Beat the World.

New York, Mar. 29.—Rear Admiral J. B. Coghlan, commandant of the navy yard, indorses the views of Admiral Dewey, expressed before the naval committee of the house in Washington in favor of the immediate construction of battleships of the class of the Dreadnought, the latest type of battleship in the British navy.

"If the Dreadnought realizes one half of what is claimed for it," Admiral Coghlan said, "it will be twenty years ahead—at least many years ahead—of any other nation. If we should begin to build a Dreadnought type at once we should not be able to complete it in time to be up with England short of four or five years. The Dreadnought has more new things in it than any other warship that I remember to have been built in my time, barring the monitor of Ericsson.

"Why should not the United States have the best navy in the world? We claim to be in the foremost files of the time, to be the most inventive race on the globe. We want our schools, our railroads, our factories and all other material things to be the best in the world. Then why, in the name of common sense, do we balk at the proposition to make our warships the best in the world? We would not sit down quietly and see ourselves distanced in educational or industrial institutions, and yet we shrink from giving our defensive powers that superiority without which our pre-eminence in commerce and industry might prove to be a vain boast in time of war."

CZAR MAKES A FAILURE OF EFFORT TO FIND A SUCCESSOR TO Count Witte.

St. Petersburg, Mar. 29.—An old aid-de-camp of the Czar speaking of the many difficulties encountered by Count Witte within the last few months, says:

"Cabinet dissensions led Count Witte to resign, but his resignation was not accepted, because no suitable successor could be found. In forming the cabinet in the first place he retained M. Durnova, the third assistant secretary of the interior, and made him minister of the interior, with the intention that the appointment should be temporary.

"Durnova proved to be a first-class revolution crusher, became indispensable and gained power. Count Witte tried to oust him, but he had superseded the premier in influence and induced the Czar to remove the interior department head from the cabinet. This deprived Witte of any influence over the Duma elections, appointments and measures concerning the affairs of the interior.

"In the meantime Ministers Timiriazoff and Kutler also abandoned Witte. Kutler on taking leave was approached by the Czar for having forced a certain appropriation bill. Kutler replied that Witte had dictated the bill, whereupon the Czar appointed Witte's enemy, Nikolsky, to succeed Kutler as minister of agriculture."

ALFONSO'S WEDDING.

Will Eclipse in Brilliance Other Events of Like Nature.

Madrid, March 29.—The most elaborate preparations are being made for the wedding ceremonies of King Alfonso to Princess Ena of Battenberg.

It is the king's desire that the ceremony should be of such a character as to exceed in brilliancy and splendor all other previous royal weddings.

It is expected that King Edward, Emperor William and several other chiefs of European states will attend.

One of the features of the nuptial ceremony will be a procession of court carriages.

The royal coaches, numbering 34, will lead the march. Of these, 16 are of great artistic and historic value, and have not been used for many years. One of the king's coaches, richly ornamented in ivory, gold, silver and precious stones, is valued at \$100,000.

READY TO PAY BUT CAN'T.

Creditors Won't Collect Their Accounts Against City.

The city is a debtor who finds it hard to get its creditors to collect what is due them. This is a strange condition of affairs, but nevertheless true.

"We have just mailed out fifty-seven postal cards to people who have claims against the city that were allowed the first of the month," said Auditor Kirkland today. "It is sometimes a very hard matter to get the people to call to collect their bills against the city, and we find every month a number whom we have to notify to come and get their checks."

There are no doubt a number of individuals who wish their creditors would treat them thus.

IN THE COURTS

County Court.

A mortgage from the Central Telephone Co. to the Columbia Finance and Trust Co., of Louisville, was filed in county court yesterday. It is in printed book form and one of the red tape necessities resulting from the formation of a million dollar combine of independent telephone companies organized a few months ago. The Paducah company is in the combine, hence the filing of the mortgage.

Attorney Thomas Crice, of the firm of Crice & Ross, and Messrs. H. H. Loving and Felix G. Rudolph have returned from Louisville where they had been to take evidence in the case of F. G. Rudolph, administrator of H. A. Rose, against the National Life Insurance company. The depositions of Louisville witnesses were taken. The suit is brought to recover a \$10,000 life insurance policy for the estate. It is held by the Western National bank, of Louisville, as security for an alleged loan.

C. A. Isbell today was appointed guardian for Sarah Brown, colored.

Dave Barter, age 50, and Eliza Scott, age 52, colored, of Williamson county, Maryland, were licensed to wed this morning. They have been married before.

At Monday's meeting of the fiscal court the county physician will be elected. Dr. J. W. Pendley is the present physician, and is a candidate for re-election. Dr. Young of the county, is also an applicant.

Judge Lightfoot will bring up a proposition he has to sell the old poor farm on the Mayfield road for \$9,000. It is proposed that the county, sell it and build another residence for the poor on 20 acres of ground the county owns in Mechanicsburg and also utilize the ground for cemetery purposes.

PADUCAH LAUNDRY CO. Wins Suit Brought By Man Who Fell in Boiling Vat.

The court of appeals yesterday affirmed the lower court in the case of Johnson vs. the Paducah Laundry Co. Johnson is the darky who one night last fall in walking across the laundry company's property at Fifth and Jefferson street, fell into a vat of steam or boiling water and was burned. He brought suit for \$5,000, but it was dismissed in Judge Reed's court on peremptory instructions and the case being taken higher is now affirmed.

ELKS' OFFICERS

THE CORPS CHOSEN LAST NIGHT TO SERVE A YEAR.

County Judge Lightfoot Named for Exalted Ruler—Social K. of P. Meeting Tonight.

The Paducah Benevolent Protective Order of Elks, lodge No. 217, met last night and elected officers for the ensuing fiscal year. The meeting was largely attended, nearly every member of the lodge being present to vote in the election—one of the most important events of the year in this order. There were several candidates in the race for the different offices, but the meeting was harmonious.

The election resulted in the selection of the following officers: Exalted Ruler—Richard T. Lightfoot. Esteemed Leading Knight—Richard D. Clements. Esteemed Loyal Knight—Earl Walters. Esteemed Lecturing Knight—A. W. Grief.

Secretary—Henry P. Nunn. Treasurer—Dow Wilcox. Tyler—Al Foreman.

The resignation of Dr. C. E. Whitesides as a member of the board of trustees was accepted. He is going to remove from the city and the vacancy will be filled next Thursday night, when the installation takes place.

William H. Farley was elected a delegate to the Grand Lodge meeting at Denver, Col., in July, and if he cannot go Mr. Harry G. Johnson will fill his place, being selected an alternate.

S. B. Hughes was re-elected a member of the board of trustees for three years.

There are three other offices, appointive, to be filled, and the appointments will be made after the installation of Exalted Ruler R. T. Lightfoot. The offices are those of Esquire, Inner Guard and Inner Chaplain.

Mr. Cary L. Applegate, district deputy of Owensboro lodge No. 144, was present—the guest of honor.

Members of the order state that there will be special features connected with the installation.

K. of P. Meeting Tonight.

The local lodge Knights of Pythias will meet tonight in its lodge room in the Campbell building to welcome Messrs. John W. Carter, of Owensboro, and J. H. Johnson, of Clinton, grand keeper of records and district deputy, officers of the state lodge, and a social meeting will be held in honor of their attendance.

The K. of P. lodge has remodeled and beautified its lodge room and one new feature is a club room adjoining the lodge room proper. It is fitted out with pool table and is one of the most complete club rooms in the city.

The Breath of Life.

It's a significant fact that the strongest animal of its size, the gorilla, also has the largest lungs. Powerful lungs means powerful creatures. How to keep the breathing organs right should be man's chiefest study. Like thousands of others, Mrs. Ora Stephens, of Port Williams O., has learned how to do this. She writes: "Three bottles of Dr. King's New Discovery stopped my cough of two years and cured me of what my friends thought consumption. O, it's grand for throat and lung troubles." Guaranteed by W. ALLOWANCE ILLEGAL

COUNCIL DISREGARDED LAW BY VOTE MONDAY NIGHT.

Ordinance Fixing Duties and Salary of City Clerk Says Must Pay His Deputy.

It comes from inner circles that the vote by the council at its meeting last Monday night, by which it was Monday night by which it was said City Clerk Bailey shall have an assistant or deputy to help get out the delayed tax book, at a cost to the city of \$75 per month, will be repealed. The members who opposed the appropriation on the grounds that it was illegal or a waste of the people's money which was not justified by the conditions, have since been able to advise several others of the fact that the ordinance which fixes the salary of the clerk also says, in so many words, that he shall attend to all the duties of the office and do so for the salary fixed, or pay for whatever help he may wish out of the salary given him. The objectors to the allowance call attention to these two provisions of the ordinance which fixes the duties of the council clerk and his salary at \$1,500 per year, payable monthly, to justify their claims and position:

"Sec. 3. The salary herein fixed as compensation of the city clerk shall be in full compensation for any deputy that may be employed by the clerk."

"Sec. 4. He shall give bond in the sum of \$10,000."

Heretofore little respect has been paid to the provisions of the ordinance fixing the clerk's duties and salary, but the objectors say this is no excuse for any further disregard of the law. They say the people turned down those who were so reckless and extravagant with their money, and this should be a warning to their successors, if it is not. They also say that no matter how much work the clerk has he is paid a salary sufficiently large to secure any short time help he may need, and for that he has plenty time in which to do all the work required of him, and do but little work at any time. The charter does not fix the office hours of the clerk no more than it does those of any other officer, many of whom do much overtime work now and then.

Starving to Death.

Because her stomach was so weak and by useless drugging that she could not eat, Mrs. Mary H. Walters, of St. Clair St., Columbus, O. was literally starving to death. She writes: "My stomach was so weak from useless drugs that I could not sleep; and not before I was given up to die was I induced to try Electric Bitters; with the wonderful result that improvement began at once, and a complete cure followed." Best health tonic on earth. 50c. Guaranteed by W. B. McPherson, druggist.

THOUSANDS WILL LOSE OUT

Raising of Tax on Ohio Saloons Will Close 5,000 Saloons.

Columbus, Mar. 29.—Thousands of men will be thrown out of employment by the enforcement of the Alkin \$1,000 liquor tax law, which has just been passed. The 5,000 proprietors of the saloons that will close will be out of employment. At least half of them have bartenders, making 2,500 more. Many porters, men who get up the saloon lunches, and bakers thrown out of employment by the decreased demand for bread from the saloons, will lose their jobs. Brewery drivers and other employees at the breweries will also suffer, and it is said today that between 10,000 and 15,000 people in all will be out of employment. Representative Alkin estimates that the gain in the state's revenue will be about \$3,450,000, three-tenths of which goes to the state.

House Work

Need Not Wear Her Out

The drudgery of house work seems never ending to tired-out, dispirited women who suffer from female complaints or irregularities. Inflammation and ulceration cause fearful bearing-down pains which are aggravated by much standing on the feet, and lifting necessary in house work.

But let no woman despair of relief from this torture. That famous tonic reconstructor of diseased or disordered female organism,

Lydia E. Pinkham's Vegetable Compound

has cured more than one million American Women, and it will cure you. When troubled with painful irregularities, when backaches and headaches drive out all ambition, Lydia E. Pinkham's Vegetable Compound will bring back health, strength, and happiness.

It Gave Me New Life and Vigor

DEAR MRS. PINKHAM:—Last spring, while we were moving, I did considerable more work than my strength permitted, and, having mental trouble at the same time, my health broke down completely and I found myself unable to rest or eat. My nervous system became shattered and I was pale and emaciated and had to take to my bed.

My sister advised me to try Lydia E. Pinkham's Vegetable Compound, and, although I had no faith in patent medicines, I was so miserable that I would take anything for relief. I found that it made a complete change for the better, inducing appetite and restful sleep and imparting new life and vigor to my entire system.

I gained nearly fourteen pounds, my complexion looked fresh and clear, and my best friends were surprised and pleased at the change and could hardly credit the fact that Lydia E. Pinkham's Vegetable Compound had accomplished it.

Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail

THE PADUCAH BULLFROG GOLD MINING COMPANY.

Organized Under the Laws of the Territory of Arizona.
CAPITAL STOCK \$1,000,000.
Par Value \$1.00 Each
Full Paid and Non-Assessable
Mines at Bull Frog, Nye County, Nevada.

To the Public:

At a meeting of the Board of Directors of the Company, held March 7, it was decided to advance the price of STOCK from Fifteen Cents to SEVENTEEN AND ONE-HALF CENTS per Share on the first of April. The above action by the Directors in their judgment is warranted for the following reasons:

FIRST—The property owned by the Company, EIGHT Claims—about 110 Acres—was secured last December, and since which time all property in the district has increased in value from 25 to 150 PER CENT owing to the development done in the district.

SECOND—The WHITE ROCK Claim on Bonanza Mountain being practically surrounded by producing mines, and the development work now being pushed on the Rush group, Peerless, Index and others, has demonstrated that the WHITE ROCK is as good property as any of them, and the additional fact of the strike just made on the Rush group which adjoins the WHITE ROCK, proving that we can and will develop a good mine.

THIRD—The "Last Chance," adjoining the WHITE ROCK, has just been bought by Edwin Arkell, a prominent mining man of Colorado Springs, for \$50,000.00, thereby proving our property worth as much.

FOURTH—In the past 60 days the value of ten BULLFROG Stocks has advanced over THREE MILLION DOLLARS, the notable ones being the Denver, Eclipse and Montgomery Shoshone. The property of our Company (see prospectus) is most favorably located to them.

FIFTH—The Railroad will be completed by June 1st, which will further enhance the holdings of the Company as well as all other property in the BULLFROG DISTRICT. We offer the best proposition that is on the market today, and can with confidence urge the purchase of the stock. Firmly believing we will develop a good mine and that an investment in our stock will prove profitable we ask you to join us before the advance takes effect.

Yours truly,

CHAPTER X.

THE PATRICIANS ENTERTAIN. To reward the enduring who read politely through the garish revel of the preceding chapter, covers for 14 are now laid with correct and tasteful quietness at the sophisticated board of that fine old New York family, the Milbrees. Shaded candles leave all but the glowing table in a gloom discreetly pleasant. One need not look so high as the old-fashioned stuccoed ceiling. The family portraits tone agreeably into the half-light of the walls; the huge old-fashioned walnut sideboard, soberly ornate with its mirrors, its white marble top and its wood-carved fruit, towers majestically aloft in proud scorn of the frivolous Chippendale fad.

Jarvis, the accomplished and incomparable butler, would be subdued and scholarly looking but for the flagrant scandal of his port-wine nose. He gives finishing little fluffs to the white chrysanthemums massed in the central epergne on the long silver plateau, and bestows a last cautious survey upon the cut-glass and silver radiating over the dull white damask. Finding the table and its appointments faultless, he assures himself once more that the sherry will come on irreproachably at a temperature of 60 degrees; that the Burgundy will not fall below 65 nor mount above 70; for Jarvis wots of a palate so acutely sensitive that it never fails to record a variation of so much as one degree from the approved standard of temperature.

How restful this quiet and reserve after the color and line tumult of the Higbee apartment. There the flush and bloom of newness were oppressive to the right-minded. All smelt of the shop. Here the dull tones and decorous lines caress and soothe instead of overwhelming the imagination with effects too grossly literal. Here is the veritable spirit of good form.

Throughout the house this contrast might be noted. It is the brown-stone, high-stoop house, guarded by a cast-iron fence, built in vast numbers when the world of fashion moved north to Murray Hill and Fifth avenue a generation ago. One of these houses was like all the others inside and out, built of unimaginative "builder's architecture." The hall, the long parlor, the back parlor or library, the high stuccoed ceilings—not only were these alike in all the houses, but the furnishings, too, were apt to be of a sameness in them all, rather heavy and tasteless, but serving the ends that such things should be meant to serve, and never flamboyant. Of these relics of a simpler day not many survive to us, save in the shameful degeneracy of boarding houses. But in such as are left, we may confidently expect to find the traditions of that more dignified time kept unswayed;—to find, indeed, as we find in the house of Milbrey, a settled air of gloom that suggests insolvent but stubbornly determined exclusiveness.

Something of this air, too, may be noticed in the surviving tenants of these austere relics. Yet it would hardly be observed in this house on this night, for not only do arriving guests bring the aroma of a later prosperity, but the hearts of our host and hostess beat high with a new hope. For the fair and sometimes uncertain daughter of the house of Milbrey, after many ominous mutterings, delays, and frank rebellions, has declared at last her readiness to be a credit to her training by conferring her family prestige, distinction of manner and charms of person upon one equipped for their suitable maintenance.

Already her imaginative father is ravishing in fancy the mouldiest wine cellars of continental Europe. Already the fond mother has idealized a house in "Millionaire's Row" east of the Park, where there shall be twenty servants instead of three, and there shall cease that gnawing worry lest the treacherous north setting current sweep them west of the Park into one of those hideously new apartment houses, where the halls are done in marble that seems to have been sliced from a huge Roquefort cheese, and where one must vie, perhaps, with a shop-keeper for the favors of an irreverent and materialistic janitor.

The young woman herself entertains privately a state of mind which she has no intention of making public. It is enough, she reasons, that her action should outwardly accord with the best traditions of her class; and, indeed, her family would never dream of demanding more.

Her gown to-night is of orchard green, trimmed with apple blossoms, a single pink spray of them caught in her hair. The rounding, satin grace of her slender arms, sloping to the opal-tipped fingers, the exquisite line from ear to shoulder strap, the melting ripeness of her chin and throat, the tender pink and white of her fine skin, the capricious, inciting tilt of her small head, the dainty lift of her short nose,—these allurements she has inventoried with a calculating and satisfied eye. She is glad to believe that there is every reason why it will soon be over.

And, since the whole loaf is notoriously better than a half, here is the engaging son of the house, also firmly bent upon the high emprise of matrimony; handsome, with the chin, it may be, slightly receding; but an unexcelled leader of cotillions, a surpassing polo player, clever, winning, and dressed with an effect that has long made him remarked in polite circles, which no

more money can achieve. Money, indeed, if certain ill-natured gossip of tradesmen be true, has been an inconsiderable factor in the encompassment of this sartorial distinction. He waits now, eager for a first glimpse of the young woman whose charms, even by report, have already won the best devotion he has to give. A grievous error it is to suppose that Cupid's artillery is limited to bow and arrows.

And now, instead of the rude commercial horde that laughed loudly and ate uncouthly at the board of the barbarian, we shall sit at table with people born to the only manner said to be worth possessing.—If we except, indeed, the visiting tribe of Bines, who may be relied upon, however, to behave at least unobtrusively.

As a contrast to the oppressively Western matron from Kansas City, here is Miss Fidelity Oldaker on the arm of her attentive son. She would be very old but for the circumstance that she began early in life to be a belle, and age cannot stale such women. Brought up with board at her back, books on her head, to guard her complexion as if it were her fair name, to be diligent at harp practice and conscientious with the dancing master, she is almost the last of a school that nursed but the single aim of subjugating man. To-night, at seventy something, she is a bit of pink bluish fragility, bubbling tirelessly with reminiscences, her vivacity unimpaired, her energy amazing, and her coquetry faultless. From which we should learn, and be grateful therefor, that when a girl is brought up in the way she ought to go she will never be able to depart from it.

Here also is Cornelia Van Geist, sister of our admirable hostess—relict of a gentleman who had been first or second cousin to half the people in society it were really desirable to know, and whose taste in wines, dinners, and sports had been widely praised at his death by those who had had the fortune to be numbered among his friends. Mrs. Van Geist has a kind, shrewd face, and her hair, which turned prematurely grey while she was yet a wife, gives her a look of age that her actual years belie.

Here, too, is Rufus Shepherd, the money-god, his large, round head turning upon his immense shoulders with-out the aid of a neck—sharp-eyed, grizzled, fifty, short of stature, and with as few illusions concerning life as the New York financier is apt to retain at his age.

If we be forced to wait for another guest of note, it is hardly more than her due: for Mrs. Gwilt-Athlestan is truly a personage, and the best people on more than one continent do not become unduly provoked at being made to wait for her. Those less than the very best frankly esteem it a privilege. Yet the great lady is not careless of engagements, and the wait is never prolonged. Mrs. Milbrey has time to say to her sister, "Yes, we think it's going; and really, it will do very well, you know. The girl has had some sense in her mind for a year past—none of us can tell what—but she seems actually sensible, and she's promised to accept when the chap proposes." But there is time for no more gossip.

The belated guest arrives, enveloped in a vast cloak, and accompanied by her two nephews, whom Percival Bines recognizes for the solemn and taciturn young men he had met in Shepherd's party at the mine.

Mrs. Gwilt-Athlestan, albeit a decorative personality, is constructed on the same broad and generously graceful lines as her own victrola. The fair-minded observer would accept as sufficient promise of a good third. Yet hardly could a slighter person display

Robbing Yourself

That is just what you are doing when you fail to get regular and sufficient sleep. Your body requires this unconscious period for repair work; without it your nerve energy becomes exhausted, and you are tired, worn-out, nervous, excitable; have headache, neuralgia, indigestion, poor appetite, or other ailments caused by a lack of nerve force. Make it your business to sleep. If you are restless, take Dr. Miles' Nervine; it soothes and strengthens the nerves, and brings sweet, refreshing, life-giving sleep, and gives the organs power to work naturally. Try it to-day.

"I had a severe spell of fever, which left me in a very weak condition and very nervous. I had severe spells of headache and neuralgia, and could sleep but very little. Every effort that was made to recover my strength was of no avail until I began taking Dr. Miles' Restorative Nervine. After I commenced to take the Nervine my sleep was profound and restful, and the pains in my head, as well as the neuralgia pains, left me to a certain extent and I grew gradually better."

MRS. E. E. GILBERTSON, 821 Berylan Ave., Belvidere, Ills.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

A Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherrybark, Golden Seal, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchial, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, and weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherrybark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, chronic coughs, bronchial and laryngeal troubles, and chronic sore throat with hoarseness. In acute coughs it is not so effective. It is in the lingering coughs, or those of long standing, when accompanied by bleeding from lungs, that it has performed its most marvelous cures. Send for and read the little book of extracts, treating of the properties and uses of the several medicinal roots that enter into Dr. Pierce's Golden Medical Discovery and learn why this medicine has such a wide range of application in the cure of diseases. It is sent free. Address Dr. R. V. Pierce, Buffalo, N. Y. The "Discovery" contains no alcohol or harmful, habit-forming drug. Ingredients all printed on each bottle wrapper in plain English.

Sick people, especially those suffering from diseases of long standing, are invited to consult Dr. Pierce by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y. Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy.

to advantage the famous Gwilt-Athlestan jewels. The rope of pierced diamonds with pigeon-blood rubies strung between them, which she wears wound over her corsage, would assuredly outweigh the frail Fidelity Oldaker; the tiara of emeralds and diamonds was never meant for a brow less majestic; nor would the stomacher of lustrous gray pearls and glistening diamonds ever have clasped becomingly a figure that was svelte—or "skinny," as the great lady herself is frank enough to term all persons even remotely inclined to be svelte.

NOTICE.

Dennis Hunt and Wm. Cameron Against Steamer Joe B. Williams.

Whereas, a libel was filed in the district court of the United States, for the Western District of Kentucky, at Paducah, on the 26th day of January, 1906, by Dennis Hunt and said Cameron, for seaman's wages, steamer Joe B. Williams, her engines, tackle, apparel, furniture, etc., alleging in substance that said boat was indebted to them in the sums of \$53.33 to said Hunt and \$65.83 to said Cameron, for seaman's wages, for services on said steamer. That said steamer Joe B. Williams is justly indebted to them in said sums respectively; that same have never been paid and prayed process against said steamer, her engines, tackle, apparel furniture, etc., and that said steamer be condemned and sold to pay said claims with cost and expenses.

Now, therefore, in pursuance of the motion under seal of said court to me directed, I do hereby give public notice to all persons claiming the said steamer, etc., or in any manner interested therein, that they be and appear in the district court of the United States in the city of Paducah Ky., on or before the second day of April, 1906, at 10 o'clock in the forenoon of that day then and there to interpose their claim and to make their allegations in that behalf.

RHEUMATISM

A CHRONIC CASE CURED AFTER EIGHTEEN YEARS—TREATMENT REPORTED BY

Dr. I. J. Mizer, Canton, Ohio.

Patient.—Mr. W. C. B., age 48 years, retired merchant, suffering from uric acid poisoning which had resulted in chronic rheumatism of 18 years standing. During recent years the uric acid had given rise to a heart affection—myocarditis.

Patient had been entirely unable to work during 12 years and was in a condition of utter helplessness. Treatment.—Had the ankle massaged as thoroughly as the pain would permit and wrapped in dry hot flannel. Teaspoonful of LIFE PLANT given after each meal—the dose gradually being increased to two teaspoonfuls. Lax Root tablets were given to keep the bowels open. Two weeks of this treatment showed marked improvement.

At the end of five weeks the patient walked to my office and after six months steady use of LIFE PLANT the rheumatism and heart trouble had entirely given way because of the elimination of their common cause—uric acid.

Signed, I. J. Mizer, M. D., Canton, Ohio.

This is one of many long standing cases of chronic rheumatism and heart trouble that the leading physicians have cured by the use of LIFE PLANT.

Full directions for the use of LIFE PLANT—free medical advice and valuable booklet telling of thousands of its cures will be sent to anyone, writing to the LIFE PLANT COMPANY, Canton, Ohio. Write NOW before you lay this paper down and forget it.

MYSTERY SOLVER

A ST. LOUIS NEWSPAPER MAN TO UNCOVER A MURDER.

The Mrs. Mangrum Case Being Worked Up As a "Special Assignment."

Silas Bent, a staff reporter on the St. Louis Post Dispatch, passed through Paducah yesterday en route to Cairo working on the Mrs. Rosa Mangrum murder case, but reports in unsatisfactory result so far. Bent was assigned to the task of working out the mystery of the murder, if possible, and has assumed the role of a detective. He started from Nashville, Tenn., the home of Mrs. Mangrum, in a skiff and came all the way to Paducah in the frail craft in search of evidence. The trip to Paducah began Saturday and ended yesterday.

Bent has gone to Cairo to complete his investigation and an interesting story of his adventures down the Cumberland will be the outcome of the assignment even though the story has little definite bearing on the mystery of the unfortunate woman's death.

Mrs. Mangrum's body was found floating in the river at Cairo and after several weeks of fruitless work on the part of detectives who tried to prove the woman was murdered at Evansville, Paducah and even near Cairo, a prominent doctor of Nashville, Dr. Feist, was arrested but so far the evidence against him is purely circumstantial and the greatest part of the work of the prosecution is yet to come.

It devolves on the prosecution first to prove where the woman was murdered, and until then the Commonwealth is helpless to make out a case against Feist. Bent's trip down the Cumberland was made to ascertain if any witness in the case could be brought to light; if any one who saw the body could be found.

The Best Cough Syrup.

S. L. Apple, ex-Probate Judge, Ottawa, Co. Kansas, writes: "This is to say that I have used Ballard's Horehound Syrup for years, and that I do not hesitate to recommend it as the best cough syrup I have ever used." 25c, 50c and \$1.00. Sold by Alvey & List.

Looking for Missing Relatives. Letters from Louise Matthews, of 1318 Hickory street, St. Louis, Mo., and Mrs. Rose Bowman, of Sigourney, Iowa; have been received by the local police department. The former desires to locate her mother, Mrs. R. F. Matthews, who is thought to be here, and the latter wants to locate relatives of an uncle, Thomas Goryley. The matters will be investigated.

—Paducah Bullfrog company owns 110 acres on Bonanza Ladd and Montgomery mountains close to such producing mines as the Denver, Eclipse, Shoshonie and others, a limited amount of stock offered for development purposes par value \$1.00 full paid and non-assessable. Buy now at 15 cents per share.

THE PALMER HOUSE

WORK OF REJUVENATING THE POPULAR HOSTELRY IS PROGRESSING.

After Constructing Entire New Basement, Dining Room, Etc., Will Be Moved.

Manager Frank Murphy, of the Palmer House is a very busy man these days with his different crews of men engaged in cleaning up and papering and painting and in many ways improving the condition of the hotel, and today spent a good deal of time with Architect Brainerd in going over the plans for the work to be done in the basement.

It is the intention to construct a basement under the entire building, and estimates are being asked for today on the work. Here will be located the lavatory, colostrage, wine room, store room, laundry, helpers' quarters, bakery and baggage room. Work on it will be started at once, and it will require about sixty days to complete it.

When the basement is completed the other plans of reconstruction will be carried through rapidly. That is, the building of a dining room on the ground floor, in the space now used by Brunson's and Harmeling's establishments, and the construction of rooms where the dining room is now located. The work will all be pushed rapidly, and the house will be a bee hive of industry in a very few days, from present indications.

Manager Murphy took a representative of The Sun through some of the newly fitted up rooms today. "These are to give you an idea of what we shall do," he said, as he showed one of the rooms. It has been repapered, a new carpet put down, new shades and curtains and new furniture added, and it is as neat and comfortable as could be desired. Every room in the house is rapidly put in the same condition, and the halls also repapered and painted, and new shades are being put in, new draperies, and in every way, anything that adds to the comforts of the guests and the attractiveness of the hotel done.

Starting Sunday night a special Sunday night dinner will be served from 6 to 8, for Sunday night parties or individuals. Manager Murphy intends to make this a feature of the house. The service will be first-class in every detail and the feature should prove attractive.

Herbine is a boon for sufferers from anemia. By its use the blood is quickly regenerated and the color becomes normal. The drooping strength is revived. The languor is diminished. Health, vigor and tone predominate. New life and happy activity results. Mrs. Belle H. Shriel, Middlesborough, Ill., writes, I have been troubled with liver complaint and poor blood, and have found nothing to benefit me like Herbine. I hope never to be without it. I have wished that I had known of it in my husband's life time." 50c. Sold by Alvey & List.

DOESN'T MIND THE WEATHER.

Deputy U. S. Marshal Brown Not Retarded in His Work.

Deputy U. S. Marshal Wade Brown is working hard despite the inclement weather, and yesterday morning attached one more barge of the steamer Clifton.

The Clifton was tied up on libel suits at Parkersburg, W. Va., three weeks ago and two of her barges were tied up Monday by Deputy Marshal Brown, near Gilbertsville. This morning the third was found and tied up.

Marshal Brown has abundance of work to do in the serving of summons and will start out tomorrow when the weather is more favorable. His present duty will carry him out of the city again.

Cured Consumption. Mrs. B. W. Evans, Clearwater, Kan., writes, My husband lay sick for three months. The doctors said he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. That was six years ago and since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal. 25c, 50c and \$1.00. Sold by Alvey & List.

TOOK GAS

AND WAS FOUND UPON STREET SUPPOSEDLY DRUNK.

When the Facts Were Made Known the Accused Was Promptly Discharged.

W. A. Raymer's experience with "laughing gas" this morning did not prove so funny as the name might lead one to believe. It caused him to pay an unwilling visit to the police station besides the humiliation of being found in a half crazed condition on the streets of the city.

Raymer was found this morning lying on the pavement by Officers Senger and Gourieux. He was bleeding at the mouth and seemed to be irrational. The officers supposed him to be drunk and hustled him away to the city hall. A short rest in the station revived Raymer sufficiently to enable him to inform the captain that he was not drunk—that is from the effects of liquor—but had taken laughing gas or some other brand of gas while several teeth were being extracted. The gas left him in rather a hilarious mood, and he forgot everything. He did not fully awake until he found himself in the police station.

His mouth was bleeding not from a fall to the pavement but from the cavities in the gums where teeth formerly reposed. He was arraigned before the court this morning but dismissed, as it was clearly shown he was not drunk.

One other case was tried, that against Charles Robinson, colored. He was fined \$1 and costs for drunkenness.

Government Will Not Maintain Rural Routes Where They Exist.

The government offers every support to mail carriers and the latest beneficial move made by the post-office department for the protection of rural carriers is given in the following letter in regard to bad roads maintained in counties.

"The letter: Washington, D.C., Mar. 29, 1906. The Postmaster, Frisco, Texas.

Sir: Replying to your letter of recent date in which you refer to some boggy places in the roads over which rural routes from your office are laid out, it is desired that you bring this matter to the attention of the patrons and road officials interested, and say to them that the department requires all roads traversed by rural carriers in the service of their routes, to be maintained in condition to be traveled with facility and safety at all seasons of the year, and unless some action looking to the proper repair of the section of the road in question is not taken within 30 days from date, the department will seriously consider the withdrawal of service from that portion of the route. Advise this office of results. Very respectfully,

P. V. DEGRAW.

Fourth Assistant Postmaster General. McCracken county has generally very good roads, but this letter means that mail carriers will report all bad roads and in the necessary repairs are not speedily made the withdrawal of the service may result. The letter, as can be seen, resulted from bad roads in Texas.

CONTRACT AWARDED

And Two Business Houses Recommended for Condemnation.

The contract for fitting roller bearings and rubber tires such as are supplied on the No. 4 station truck, on the hose truck at No. 3 station, was yesterday afternoon awarded to Ed Morgan, the blacksmith, for \$360, and the work will begin at once.

The committee also received a recommendation from Fire Chief James Wood for the condemnation of two buildings at 118 and 120 Broadway, formerly occupied by the M. Kahn whiskey house and S. F. Groner. The chief recommended several weeks ago that the council require the buildings to be remodeled and made same or condemned. No improvements have been made, and it is probable the matter will be presented to the council Monday night.

—Look over our prospectus, if you have lost or misplaced it get another. The statements regarding the Paducah Bullfrog Co. in same are true and without exaggeration. Don't wait until stock is advanced but buy now at 15 cents a share.

THAT quiet elegance reflected in the clothes of the merchant tailor is faithfully presented in Atterbury System and Hart, Schaffner & Marx Clothing. Its worth knowing that every garment is made by hand-construction—built by tailors skilled in their art. While the spring patterns in the new grays and twilight grays are especially inviting, the more subdued shades are also very pleasing. Our Clothing Cabinets are now stocked for spring. You'll find the most styles here at every price—and more for your money. All the various lengths are shown in single and double breasted. Special pains will be taken by salesmen to fit them to you JUST AS THEY SHOULD BE, and to please you in style and satisfy in price. You can't go wrong by giving us a spring look.

BLOODY UPRISING COMING.

Revolutionists Worked Into Fury By Repressive Measures.

St. Petersburg, March 30.—Despite the government's assurance that another extensive outbreak in the immediate future is impossible, the clouds are lowering, and there are other indications that a big storm may break before parliament meets. The resentment against the terrible repressive measures of the government is arousing the people, especially the workmen in the cities. This is playing into the hands of the revolutionists, who are planning a political strike and a general uprising. They believe that the right moment will come in mid-April, and both sides are preparing for the fray. If it comes, it is likely to be bloodier and more terrible than anything previously witnessed in this country.

The record of arrests last week in St. Petersburg, besides showing an awful state of lawlessness in the capital, is eloquent testimony of the methods by which the government hopes to prevent the threatened explosion. According to the returns, 659 beggars, 215 persons without passports, 217 thieves, 270 highwaymen and 1,067 unclassified persons, which means political suspects, were taken into custody.

DELEGATES SELECTED

By Local Druggists to Their National Association.

At the Retail Druggists' Association yesterday afternoon at the city hall the body elected Drs. Bice Wal-

lace and Jesse Gilbert as delegates to the National Druggists' Association which will meet October 6th at Atlanta, Ga.

Hereafter a meeting of the association will be held every week at the city hall to promote the sociability of the profession. Druggists have taken little interest in their association work heretofore, and have

swakened to the necessity of regular meetings to keep in better touch with the conditions.

Theatrical Notes

Mr. Perry Malone, of Murray, formerly of the News-Democrat here, in addition to his newspaper work in Murray, has embarked in the theatrical business to some extent, and is preparing to star "Blind Joe" Mangum, the famous violinist.

Mr. Malone has taken over the management of the theatre in Murray temporarily and thinks that Mr. Mangum, who is greatly appreciated in Murray, would make a good drawing card. The noted violinist has consented to accept the engagement and will probably play the concert next week.

The Rodney Stock company last night presented "The True Kentuckian" to a well filled house. Tonight the bill will be Hall Cain's five act pastoral drama, with special scenery and electrical effects. As an added feature Miss Ethel Mayer will sing Mr. Herbert Wallerstein's latest success, "Mr. Sun."

"The Triumph of Betty," the new play of dainty Adelaide Thurston, comes to The Kentucky Tuesday night.
